If you want to test an ILIAS feature please open the related category below. There is one category for modules and one for services. Both are sorted alphabetically. Within a testing category users with role TESTER have sufficient permissions to create new objects and edit existing ones.

For some modules we are still looking for testers! This is always indicated on top the module page - and also in the [development guide](#). If you are interested, please contact the [ILIAS management](#).

#4 It's worth the update ...

ILIAS 5.1 – Some Selected Features

- ◉ Support of Learning Communities
- ◉ New Object Type Study Programme
- ◉ Extended Components:
 - Course Management
 - Exercise
 - ILIAS Page Editor
 - Learning Progress
 - Mail System
 - Test
- ◉ Design Revision part 2
- ◉ And some more ...

Support of Learning Communities

Implemented features:

- ◉ *Who is online?*-tool for awareness
- ◉ Course contacts and support contacts
- ◉ User connections / approved contacts

Support of Learning Communities

Don't miss:

Workshop ,Launching Learning Communities in ILIAS'
by Alexandra Tödt today at 16:00

New Object Type: Study Programme

Aim of implementation:

- ◉ Clustering courses to a curriculum
- ◉ Managing learning progress
- ◉ Supporting alternative ways to complete programme
 - ▶ „Take either course B1 or B2 to fulfill requirements.“

Extended components: Test

- Competence Service for Question Pool
- Improve Shuffling of Answer Options during Testpass
- Long Menu Question
- Separating Submission and Navigation

Extended components: Exercise

- Criteria for assignment reviews (peer feedback)
- Minimum number of required characters for feedback
- Access to given feedback after submission
- Limited number of file submissions
- Second deadline for late submissions
- Editable team constellations
- Building teams out of groups
- Peer feedback relevant for passed status

Extended components: Course Management

- Auto-fill for Course waiting list
- Course/Group Cancellation Deadlines
- Improved Course Presentation in Portfolio
- Learning Objectives-Driven Course - part 2
- Start and End Date for Courses
- Summary Mail comprising News of Groups and Courses

Extended components: ILIAS Page Editor

- Carousel
- Time-based activation of sections
- Sub/superscript in paragraphs
- Interpretation of URLs
- Link to user name (in wiki)

Extended components: Learning Progress

- Learning progress for file objects
- Learning progress for mediacasts
- Learning progress on visited LM pages
- Introduce learning progress in survey
- Sending mails from learning progress
- SOAP method for determination of learning progress

Extended components: Mail System

- HTML mails with skin
- Course mail templates
- New placeholders for course mails
- Sending mails from learning progress
- Delete old / orphaned mails

Sender: mkunkel

Subject: 5.1 testen beginnt am 1. September!

Message: Liebe ILIAS-Tester,

am Freitag nachmittag wurden die letzten Funktionen von 5.1 committed und die Entwicklung damit abgeschlossen. Seit dem Wochenende liegt jetzt das Beta-Release vor. Ab morgen kann dann mit dem Testen von 5.1 auf <http://www.ilias.de/test51> begonnen werden. Dann werden auf Testrail auch die Testsuiten bereitstehen.

Das Zeitfenster für das Testen ist aktuell vom 1. September bis zum 30. November 2015 geöffnet. Die letzten Wochen sollten allerdings dem "Re-Testen" vorbehalten sein. Je früher alle mit dem Testen und Bugreporting beginnen, um so früher können die Entwickler auch Bugfixen - und um so schneller ist 5.1.0 stabil.

Design Revision - part 2

Collection of design issues and ranking

Call for tenders for issues with highest ranking

Realised for ILIAS 5.1:

- DR 5.1 - Issue 02: Keep Drop-Downs in Viewport / Overlay handling
- DR 5.1 - Issue 05: Better presentation of responsive toolbars

Already scheduled for ILIAS 5.2:

- DR 5.1 - Issue 06: Date/Time input fields on Small media Devices

And not to forget ...

- Local Advanced Metadata ..
- Search in forum and online help
- Portfolios on Personal Desktop
- Start and end dates in booking pools
- Improved Web Access Checker

More Information About 5.1

You find a list of all 5.1 features and links to the feature descriptions in the Feature Wiki at

- http://www.ilias.de/docu/goto.php?target=wiki_1357_Release_5.1

The screenshot shows the ILIAS Feature Wiki page for Release 5.1. The page has a blue header with the ILIAS logo and navigation links for 'USING ILIAS', 'DEVELOPMENT', and 'COMMUNITY'. Below the header is a green breadcrumb trail: 'ilias.de > Software Development > Feature Wiki'. The main content area is titled 'Feature Wiki' with the subtitle 'Information about planned and released features'. There are links for 'Page', 'What Links Here?', and 'Print View'. The main content is titled 'Release 5.1' and includes a 'Timeline for 5.1:' section with the following items:

- Feature freeze at April 01, 2015
- Release 5.1.0 beta1 scheduled for August 28, 2015
- End of testing phase scheduled for end of November 2015
- First stable 5.1.0 release hopefully before Christmas 2015

Below the timeline is a section titled 'LIST OF FEATURES' with the text 'The following 88 features have been implemented and are part of release 5.1:'. A list of features follows:

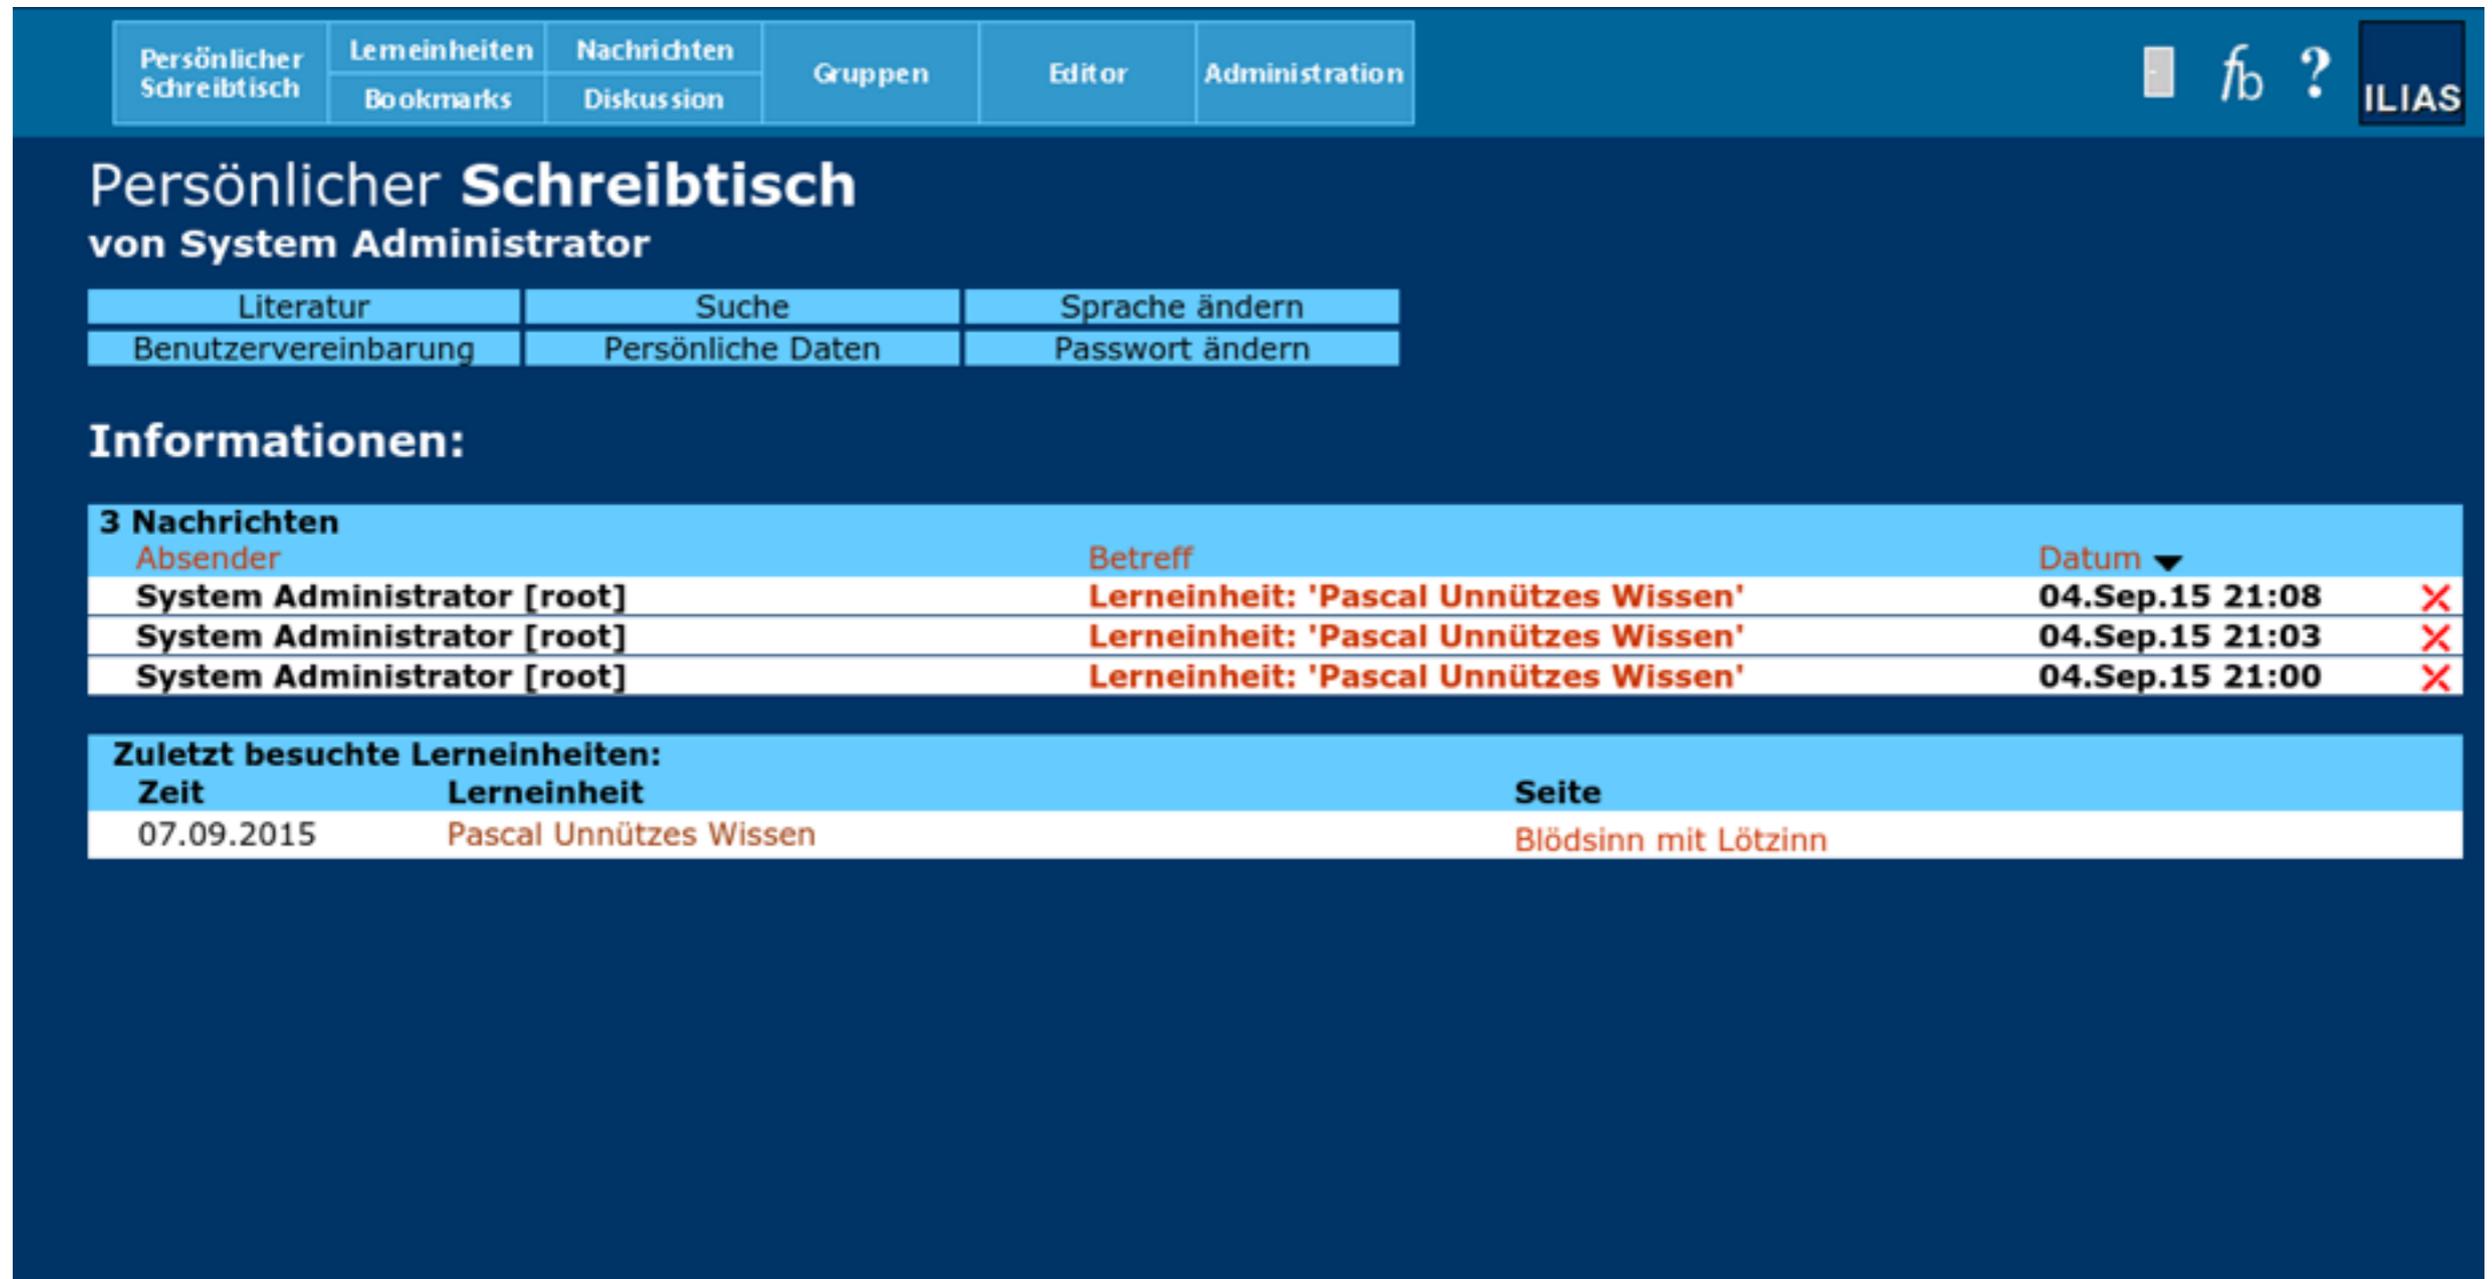

- [Add New Posting](#)
- [Add subscript and superscript](#)
- [Adopting Content for Groups](#)
- [Auto-fill for Course waiting list](#)

On the right side of the page, there is a 'Wiki Search' box with a 'Search' button. Below that is a 'Wiki Navigation' section with links for 'Overview', 'Jour Fixe Agendas', 'Release 5.2', 'Release 5.1', 'Release 5.0', 'Release 4.4', and 'Important Features'.

Look Back in History

Look Back in History

The screenshot shows the ILIAS user interface. At the top, there is a navigation bar with buttons for 'Persönlicher Schreibtisch', 'Lerneinheiten', 'Nachrichten', 'Gruppen', 'Editor', and 'Administration'. Below this, the user's name 'System Administrator' is displayed. A secondary navigation bar contains links for 'Literatur', 'Suche', 'Sprache ändern', 'Benutzervereinbarung', 'Persönliche Daten', and 'Passwort ändern'. The main content area is titled 'Informationen:' and features a section for '3 Nachrichten' (3 Messages). This section contains a table with columns for 'Absender' (Sender), 'Betreff' (Subject), and 'Datum' (Date). The messages are from 'System Administrator [root]' regarding the learning unit 'Pascal Unnützes Wissen' on 04.Sep.15. Below the messages, there is a section for 'Zuletzt besuchte Lerneinheiten:' (Recently visited learning units), which contains a table with columns for 'Zeit' (Time), 'Lerneinheit' (Learning Unit), and 'Seite' (Page). The last visited unit is 'Pascal Unnützes Wissen' on 07.09.2015, with the page 'Blödsinn mit Lötzinn'.

Absender	Betreff	Datum	
System Administrator [root]	Lerneinheit: 'Pascal Unnützes Wissen'	04.Sep.15 21:08	X
System Administrator [root]	Lerneinheit: 'Pascal Unnützes Wissen'	04.Sep.15 21:03	X
System Administrator [root]	Lerneinheit: 'Pascal Unnützes Wissen'	04.Sep.15 21:00	X

Zeit	Lerneinheit	Seite
07.09.2015	Pascal Unnützes Wissen	Blödsinn mit Lötzinn

Look Back in History

Did you ever had a look at ILIAS 1.9?

Have you ever used 2.4?

Do you remember ILIAS 3.2?

You can try out old ILIAS installations with your laptop at the ILIAS society stand. Pascal Grube has installed old versions and will support you in your trip to the past.

Thank you for your attention
and enjoy the conference!
